

Nebraska Department of Transportation  
**Floodplain/Floodway Development  
 Permit/Application**

Permit Application No.  
18-09-05

Date:  
8/23/18

This form is used for any man-made change to improved or unimproved transportation facility, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation, drilling operations, or storage of equipment or materials.

Nebraska Department of Transportation will obtain all other necessary federal, state, or local permits (e.g., Corps of Engineers 404 Permit, Local Levee District, etc.)

<b>1.</b>	Name of Applicant: Nebraska Department of Transportation PO Box 94759 Lincoln NE 68509-4759		
<b>2.</b>	Type and Use of Development: Mill and overlay; bridge repair	<b>3.</b>	Specific Location of Development: US-30, MM 285+71 to MM 293+05; Bridge at MM 3+46

*The following section is provided by NDOT for the community official's monitoring/tracking purposes:*

<b>4.</b>	Is the Development Substantial Improvement? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Complete this section if the proposed development involves the improvement of a structure (i.e., walled and roofed building). Pre-improvement Value of Structure: \$ _____ Cost of Improvement: \$ _____		
<b>5.</b>	Is the development in an identified floodplain? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <b>Please see attached documentation.</b> <b>If Yes, complete the following:</b> a. Elevation of the Base (100-Year) Flood _____ * _____ Ft. MSL/NGVD 29 or NAVD 88 <p style="text-align: center;">Or</p> Worst case impact _____ rise in the Base (100-year) Flood * If project includes multiple floodplain crossings, this information is summarized in attached documentation. b. Elevation/Floodproofing Requirement (if applicable) _____ NA Ft. MSL/NGVD 29 or NAVD 88 c. Is the development in a designated Floodway? <input type="checkbox"/> Yes New structures for human habitation are prohibited. For any other Floodway development, the NDOT must provide certification by a registered professional engineer that the development would result in no increase along the floodway water surface profile. <input checked="" type="checkbox"/> No If a floodway has not been designated, the NDOT may be required to submit hydraulic data demonstrating that the proposed development will not increase flood heights more than one foot at any location.		

**If the development is in a floodplain, the following shall apply:**

If work includes a new or substantially improved nonresidential building, NDOT will provide certification by a Registered Engineer, Architect, or Land Surveyor that the building is elevated or flood proofed at least one foot above the base flood elevation.

By signing below, the local authorizing official acknowledges the above and any floodplain information submitted with this permit application.

All provisions of the Shelton Floodplain Management Resolution/Ordinance (738) shall be complied with.
